

To whom it may concern,

I am writing a comment in regard to KLOVE broadcast FM 100.1

1. KLOVE is serving me and my family with positive and encouraging music through its broadcast.
2. If KLOVE were displaced, our family will lose our primary radio program that is part of our daily life, hearing valuable messages and music that are suitable for our young children as well.
3. I believe the service that KLOVE provided is in the public interest because its radio content is suitable and encouraging to its listener. The music it plays is very unique and no other station in our town plays such music that are appropriate for young and old in the family.
